The Committee was concerned about the confusion created by the reference to the National Gambling Amendment Act 10 of 2008 in the B version of the Bill whereas the long title of reflects the Bill amending the National Gambling Act No 7 of 2004. Further, at its briefing, the Committee was presented with the original explanatory memorandum that was not coherent with the provisions of the B version of B27. The Committee having considered the above submissions agreed that these are substantial comments which are valid and of importance, they need to be addressed as proposed amendments at the Select Committee. The Committee met on 12 March 2019 and agreed to abstain from voting on the Bill subject to the proposed amendments and principle issues raised above being seriously considered by the Department of Trade and Industry prior to the final and voting mandate being conferred by the House. The negotiating mandate is attached herein as Annexure "A" of the report.
