At the Law School, I was trained in court Litigation both in High Court and Magistrate Court and can confidently confirm valuable experience and training that I gained. This training and experience was demonstrated during my pupillage at TH Madala Chambers in which I served pupillage stint concentrated mainly in both the High Court Litigation and Magistrate Litigation. I have appeared in the High Court over the past years of my admission as an Advocate of the High court of South Africa and now very conversant in the procedures of both courts. I have been involved in much complicated matters both as a pupil advocate, and a director at my chambers.
